

October 16, 2025: For the Public Record

Every single day from wake to sleep,

Donald Trump's team has one goal around our home:

To cause us to feel agitated and distracted by their oppressive presence.

Each and every moment that I spend paying attention to their antics,

Is a moment that their team is seeking to enflame and increase to their advantage.

This is a cause and response and cause and response cycle that is perpetually forced upon our home - without fail. This is a 100% true and absolutely certain observation.

Just put this information in your pocket because **it is the true heart and soul of Donald Trump since he began exposing himself as a host of evil.**

The choices appear to be

A) Do nothing and allow Donald's treason to grow without any issue; or

B) Respond, in which case, **they respond again by increasing their own aggression.**

The solution is to peacefully present an opposing force that they will continue to flail back against with greater and greater violence - **exposing themselves as the true instigators of a violent movement for their own gains.**

American freedom is **the new civil rights movement.**

As Donald's team continues to expose itself, **we continue to grow our peaceful opposition to their evil ways.**

Each time they will respond with greater and greater violence *which is more and more obvious proof of their evil intentions.*

Donald's team has no other choice now except to continuing pressing forward with their plans - except **today, we can all see** that **he has lied**, cheated, and **forced his way through any opposing force that has attempted to stand in his way.**

Each moment of **pressure that his team places against us** is **another moment of increase in our peaceful gathering** of our presence **to oppose his ways.**

We, the People, do not support tyrants, bullies, oppressive authoritarians or *any* of their ways.

As we continue to oppose their aggression, **they will become more aggressive** (surreptitiously aggressive by way of false flags) in order **to secure their goals of provocation and takedown** - **we are, in fact, being baited and sabotaged by our own government now.**

Let these be absolute lessons for anyone attempting to decipher the ways and truths of these evil hosts.
